

NeatConnect[®]

CLOUD SCANNER + SMART ORGANIZATION SYSTEM

NeatConnect transforms paper into digital files and sends them straight to the cloud - without a computer. From any room in your house, or any spot in the office, NeatConnect's Wi-Fi compatibility and touchscreen interface make organizing your important information fast and easy.

Everything you scan with NeatConnect is instantly available via smartphone, tablet, and online - all thanks to Neat's cloud service. Multiple users can even share NeatConnect, sending files from their own email accounts or scanning to additional cloud services. Neat's InDocument Identification unlocks the data in whatever you scan, making it useful and usable!

With its speed, easy interface, and array of unique features, NeatConnect helps you save time while taking your organization and productivity to whole new levels - so you can get to what matters.

SCANS DIRECTLY TO

Neat Cloud Service, OneDrive[®], OneNote[®], Evernote[®], Box[®], Dropbox[®], Google Drive[®], Email, FTP, SD card, and Neat's Desktop Software
